PROFESSIONAL SUMMARY

Full Stack Developer with expertise in Laravel, React, and modern web technologies. Proven experience in e-commerce platforms, payment systems, and multi-marketplace integrations, contributed to PCI-DSS Level 1 compliant payment solutions at Paytia. Currently leading development of inventory management systems with AWS deployment experience, Reduced sync errors across 5 marketplaces by 60% using Redis and scheduled queues.

TECHNICAL SKILLS

Backend & Frameworks: PHP, Laravel, CodeIgniter, Filament, Livewire, Blade
Frontend: React.js, JavaScript, Inertia.js, Alpine.js, HTML, CSS, Tailwind CSS
Database & Storage: MySQL, Redis, Amazon RDS, Amazon S3
APIs & Integrations: Shopify API, Amazon SP-API, Walmart API, Wayfair API, Houzz API, eBay API
Payment & Communication: Stripe, PayPal, Twilio, WebRTC, Webhooks
DevOps & Tools: Git, AWS EC2, Nginx, Supervisor, Linux, Postman, VS Code

PROFESSIONAL EXPERIENCE

Full Stack Developer & Project Manager Jan 2025 - Present
LetUsCode Systems Pvt. Ltd.

- Independently spearheading the end-to-end development lifecycle—from architecture and UI/UX design to development, deployment, and scaling—ensuring a unified and efficient system
- Leading the development of a Laravel-based e-commerce admin panel to manage products, orders, and suppliers across major marketplaces
- Built and integrated multi-marketplace sync systems for Shopify, Amazon, Walmart, Wayfair, Houzz, and eBay
- Improved backend performance with Redis queues, job workers, and automated scheduling using cron, used Webhook also in some of them
- Deployed scalable solutions on AWS EC2 with secure production setup including RDS, S3, Supervisor, Nginx, and HTTPS
- Developed admin interfaces using Filament, delivering clean and functional UI for internal users

Backend Developer Jan 2024 - Dec 2024
ProtechGenie

- Built secure backend modules for Paytia, a PCI-DSS Level 1 fintech platform, with a focus on data encryption, tokenization, and compliance
- Integrated payment solutions using Stripe, PayPal, Braintree, and Twilio, including SMS-based payment processing
- Implemented WebRTC to enable secure real-time calls during transactions and support

Software Engineer Aug 2023 - Dec 2023
Mobzway Technology

- Developed responsive modular UIs using ReactJS for real-time multiplayer gaming platforms
- Used WebSockets for live gameplay interactions between players
- Identified and resolved performance bottlenecks in rendering and memory management
- Collaborated with designers and QA to fine-tune game logic and enhance user experience

PROJECTS

Real-Time Chat Application

Built a full-featured messaging app with instant messaging, emoji/markdown support, file sharing, group management, and responsive UI. Used background jobs for async processing.

ReactJS, Laravel, WebSockets, Redis

Multi-Vendor E-commerce Marketplace

Developed a full-stack system with vendor dashboard, real-time UI, SSR, role-based access, and integrated Stripe for payments.

Laravel, React (TypeScript), Inertia.js v2, FilamentPHP, Stripe

Social Media Website

Created a small social platform with timelines, posts, likes/comments using Laravel and Vue.js, deployed on shared hosting.

Laravel, Vue.js, Inertia.js, Tailwind CSS

Car Selling Website

Simple car listing/selling site built with Laravel, supporting user-friendly submissions and browsing.

Laravel

EDUCATION

B.Tech in Computer Science & Engineering

Dec 2023

Dev Bhoomi Institute of Technology, Uttarakhand Technical University

GPA: 6.7

Higher Secondary (10+2) in WBCHSE

May 2019

MMVVdyaMandir

GPA: 8.72

Secondary (10th) in WBBSE

May 2017
