PROFESSIONAL EXPERIENCE

Full Stack Developer Jan 2025 – Present
LetUsCode Systems Pvt. Ltd.

- Spearheaded end-to-end development lifecycle from architecture to deployment, ensuring scalable and secure solutions.
- Built a **Laravel-based multi-marketplace admin panel** for products, orders, and suppliers across Shopify, Amazon, Walmart, Wayfair, Houzz, and eBay.
- Improved backend efficiency with **Redis queues, workers, and cron jobs**, reducing marketplace sync errors by **60%**.
- Designed internal admin UIs with **Filament**, delivering clean and functional dashboards.
- Deployed production-grade systems on **AWS EC2, RDS, S3, Nginx, Supervisor, HTTPS**.
- Developed an **Electronic Medical Records (EMR) platform** integrated with **Surescripts**, enabling secure prescription workflows and healthcare data exchange.
- Currently building an **AI-powered Form Builder** (Frontend: **React/Node.js** – dynamic form with real-time results; Backend: **Python** – AI-driven logic for intelligent form processing).

Backend Developer Jan 2024 – Dec 2024
ProtechGenie

- Built secure backend modules for **Paytia (PCI-DSS Level 1 fintech platform)** with encryption and tokenization.
- Integrated payment gateways: **Stripe, PayPal, Braintree**, enabling secure digital transactions.
- Implemented **Twilio-based SMS payments** and **WebRTC** for real-time secure calls.

Software Engineer Aug 2023 – Dec 2023
Mobzway Technology

- Developed modular, real-time gaming UIs using **ReactJS** and **WebSockets**.
- Improved rendering performance by optimizing memory-heavy components.
- Collaborated with designers and QA to enhance player experience and stability.

TECHNICAL SKILLS

Backend & Frameworks: PHP, **Laravel**, CodeIgniter, Filament, Livewire, Blade
Frontend: React.js, **JavaScript**, Inertia.js, Alpine.js, HTML, CSS, Tailwind
Database & Storage: **MySQL**, Redis, Amazon RDS, S3
APIs: Shopify, Amazon SP-API, Walmart, Wayfair, Houzz, eBay
Payments & Comms: Stripe, PayPal, Twilio, WebRTC, Webhooks
DevOps & Tools: Git, **AWS EC2**, Nginx, Supervisor, **Linux**, Postman, **Cursor**, **OpenAI**

PROJECTS

- **Real-Time Chat Application:** Built a full-featured messaging app with instant messaging, emoji/markdown support, file sharing, group management, and async background jobs using **React, Laravel, WebSockets, Redis**.
- **Multi-Vendor E-commerce Marketplace:** Developed a full-stack system with vendor dashboard, real-time UI, SSR, role-based access, and integrated Stripe for payments using **Laravel, React (TypeScript), Inertia.js v2, Filament**.
- **Social Media Website:** Created a small social platform with timelines, posts, likes/comments using **Laravel, Vue.js, Inertia.js, Tailwind CSS**, deployed on shared hosting.

EDUCATION

- **B.Tech in Computer Science & Engineering** – UTU | GPA: 6.7 (Dec 2023)
- **Higher Secondary (10+2) in WBCHSE** – MMVV Vidya Mandir | GPA: 8.72 (May 2019)
